- **Longevity** – Our products are made with the finest materials and American craftsmanship providing a quality product with lasting durability and protection, saving you money.

Radiation Protection Material

.35mm, and .5mm Lead Equivalency

Vital Lead™ - Light weight and flexible composed of cerium and/or trade secret rare earths, Plasticizer. It is roughly 16% lighter than standard lead.

Zero Lead™ - Ultra-Light weight and flexible composed of Bismuth and/or Rare earths, Plasticizers. It is roughly 23% lighter than standard lead.

9001 ATHENA

The 9001 ATHENA frontal protective apron is perfect for the longest continuous use in the lab. The trademark Cinch Belt provides lumbar support and helps take the weight off your neck and shoulders. The back horizontal 2" webbing strap with hook and loop closure keeps the apron snug to the body.

- The most effective weight relief and support in a single sided apron.
- 6" wide Cinch Belt™ with back elastic support – when cinched tightly, removes apron weight from shoulders.
- Back shoulder-hook and loop strap for secure fit.
- Detachable belt loop so belt doesn't get lost.
- Padded Back 'Wings' & Memory Foam Shoulder Pads
- Available in .35mm / .5mm equivalency
- Made in USA

9002 APOLLO

The 9002 APOLLO frontal protective apron is a combination of support and quick on-and-off styling. The back straps come to the front with a 2" webbing strap and buckled belt. The firmly cinched belt assists in taking the weight off your neck and shoulders. The back horizontal 2" webbing strap with hook and loop closure keeps the apron snug to the body.

- Weight relieving crisscross back straps with fully adjustable belt, single sided apron.
- Easy on/off quick release 2" heavy duty buckle closure.
- Back shoulder-hook and loop fastener for secure fit.
- Padded Back Straps & Memory Foam Shoulder Pads
- Available in .35mm / .5mm equivalency
- Made in USA

Premium Lead Apron

9003 ODYSSEUS

The 9003 ODYSSEUS frontal protective apron is great for the extra apron in the room and for those with a tight budget. The back 'wings' are fully padded for comfort and the 2" wide webbing crisscross belt buckles snugly in the front to assist in the distribution of weight off the neck and shoulders. Strategic belt loops on the sides ensure your belt will be in the most comfortable position.

- Our classic apron retooled and for a great price.
- 2" wide webbing crisscross in the back to buckle in the front.
- Belt distributes weight off shoulders as it is cinched tight.
- 2" heavy duty buckle.
- Padded Back 'Wings' & Memory Foam Shoulder Pads
- Available in .35mm / .5mm equivalency
- Made in USA

9004 ZEUS

The 9004 ZEUS frontal protective apron is our MOST POPULAR apron. The ZEUS is well balanced and fits like a dream making it our best seller. The crisscross padded back straps fasten snugly to the body with hook & loop for the most weight distribution efficiency. The back horizontal 2" webbing strap with hook and loop closure keeps the apron snug to the body.

- Our Most Requested Apron
- Criss-crossing in back to hook and loop front tabs.
- Back shoulder-hook and loop fastener for secure fit.
- Padded Back Straps & Memory Foam Shoulder Pads
- Available in .35mm / .5mm equivalency
- Made in USA

9014 POSEIDON

The 9014 POSEIDON frontal protective apron is a cousin to the ZEUS and a very popular style. The wide elastic in the back straps stretches enough to raise the weight off the shoulders like magic. The straps crisscross to the front with hook & loop closures. The elastic allows the apron to move with you and return to its original position. The back horizontal 2" webbing strap with hook and loop closure keeps the apron snug to the body.

- Like our #9004 Zeus apron but with an elastic back. That provide unparalleled fit and ease of motion.
- Crisscross back design with hook and loop front tabs.
- Back shoulder-hook and loop fastener for more secure fit.
- Available in .35mm / .5mm lead equivalency
- Made in USA

9350 ADONIS

The 9350 ADONIS frontal protective apron is perfect for the operating room or situations when a 'QUICK DROP' is needed. The back straps unique design crisscross to the front and fasten with hook & loop. Once the straps are unfastened, the apron can be removed from underneath the sterile gown. The back straps are fully padded and have shoulder pads, of course, and are 'leaded' 6" from the top for added weight distribution and protection.

- QUICK DROP/ Operating rm. single sided lead apron.
- The straps are designed to release from under the gown.
- Back straps are foam padded for comfort and balance.
- Shoulders have thick memory foam shoulder pads.
- Tabs attach to the front with sturdy hook and loop.
- Shoulder loops attached for easy storage
- Available in .35mm / .5mm equivalency
- Made in USA

Premium Lead Full Wrap

9V47 MERCURY

The 9V47 MERCURY full-wrap protective vest wraps fully in the front to the edge of the armholes with just the right amount of hook and loop so as not to have a tug of war with your apron. The 1" buckles close at the shoulder and close at the waist at the side for no peek-a-boo exposure. This vest has been thoroughly designed with your comfort and protection in mind.

- The ultimate in full body shielding and comfort while offering the maximum mobility.
- Superior weight distribution.
- Full wrap front w/ hook & loop closure side waist and shoulder buckle for security.
- Available in .35mm / .5mm equiv. for the front
- .25mm equiv. for the back
- Made in USA

9S07 OLYMPIA

The 9S07 OLYMPIA full-wrap protective skirt is the best-fitting skirt in the industry. The kilt-style apron fully wraps to the front from side seam to side seam. Take note- not all manufacturers fully protect the front! The hook & loop front fastener is also companioned with a 2" wide side buckle that can be loosened or tightened at will.

- Hanging loops attached for easy storage
- Available in .35mm / .5mm equiv. for the front
- .25mm equiv. for the back
- Made in USA

For those whose hips are less defined, we also offer detachable suspenders for an additional cost.

9V12 NEPTUNE

The 9V12 NEPTUNE full-wrap protective vest is perfect for mobility. This design helps to separate the weight bearing from your shoulders and back to your torso and waist by the wide elastic in the back, reducing the wear and tear on the body while providing unparalleled protection. The vest has a 1" buckle at the side for ease of attaching the front hook & loop strap.

- Vest has full frontal protection in an easy to wrap style.
- Superior weight distribution, less weight on the shoulders.
- Wide elastic in back. Hook & loop closure in the front tabs of the vest.
- Available in .35mm / .5mm equiv. for the front
- .25mm equiv. for the back
- Made in USA

9016 Hercules II

The 9016 HERCULES II full-wrap protective coat-type apron is perfect for long continuous use. The Cinch Belt™ provides lumbar support and takes the weight off your neck and shoulders. The full front wrap with minimal hook & loop provides for an easy on and off while having optimal protection.

- Great distribution of weight
- Fully wrapped front and ample hook and loop provides for a sturdy and secure fit.
- 6" wide Cinch Belt™ with back elastic support – when cinched tightly, removes apron weight from shoulders.
- Wide belt loops attach belt to apron
- Front protection available in .35mm / .5mm Pb equiv.
- Back protection at .25mm Pb equiv.
- Made in USA

Specialty Collection

Peg Rack-10	5 Apron	Peg Rack-20	10 Apron

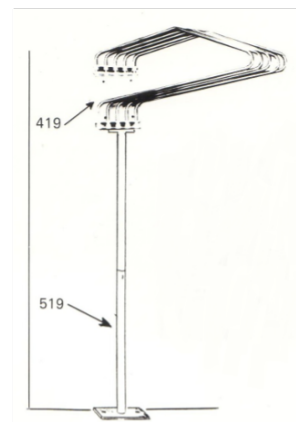

Multi Apron Rack

Wall mounted storage rack with 5 stainless steel, pivoting apron hangers.

- Can fan out nearly 180 degrees or can be swung tightly to the wall (3" from the wall) either on right or left side swing.
- Heavy duty construction and nylon bearings allow storage of up to 5 aprons.
- Maximum suggested weight 110 lbs.
- *Care must be taken that a sufficiently strong support wall be used for mounting. Mounting hardware available upon request

Model# 419	
Unit	Sizes
1 Rack	Left Swing
	Right Swing

D-519 Weak Wall Support

Vertical Support column between floor and console body for weight retention. Allows for #419 to be mounted to every wall

SSRack

The Space Saver Rolling Rack fits in tight spaces where others will not. The all metal rack has 25”L x 21”W x 70”H and accommodates up to 200 lbs. There are 2 locking casters, so the rack stays in place. It comes with 5 stainless steel hangers.

- Height:
 - Floor to Top Bar: 70”
 - Base to Top Bar: 64”
- Depth: 21”
- Tubing:
 - Round: 1/4”
 - Square: 1 1/2”
- Distance Between Wheels: 24”

Valet

A heavy duty mobile apron rack for lead apron storage. Heavy-duty locking swivel casters allow the Mobile Apron Rack to be easily moved when needed.

- A workhorse with rugged strength and durability!
- High grade aluminum construction
- Holds up to 120 lbs.
- Length 36”
- 8 hanger capacity.
- Assembly required.
- Hangers sold separately.
- Made in USA

Spider-Rack

The Spider-Rack is a mobile apron rack with a 360° design. Do not be fooled from cheap imitations. Unlike other racks, our warrior is designed to take a beating!

- Storage capacity of 8 leaded aprons
- Steel Construction body
- Aluminum wheelbase
- Hanger arms move forward and backward
- Height 48", 24" wheelbase, Weight 23 lbs.
- Maximum load weight 160 lbs.
- Wheels are of durable plastic
- Assembly required.
- Lifetime Guarantee.

Hanger

Store your Lead Aprons with our stainless steel Apron Hangers. These Hangers are designed to support the weight of lead aprons over long periods of time.

- Heavy duty Polished Metal
- Turned up ends holds any apron without slipping.
- Swivels
- 20.5"
- Made in America

Carrier

Carrier Shoulder Bag, best selling carrying bag, keep your apron safe and secure while traveling.

- 28" Long x 8" Diameter
- Holds apron + accessories
- Very comfortable over shoulder
- Riveted outside pocket
- Carrying handles
- Velcro closure
- All colors available
- May be monogrammed
- Made in USA

Hanger-2

Store your Lead Aprons with our stainless steel Economy Hangers. These Hangers are designed to support the weight of lead aprons over long periods of time.

- Heavy duty Polished Metal
- Turned up ends holds any apron without slipping.
- Non-Swivels
- 18.5"
- Made in America

AX-400A

The AX-400A Scattermaster™ is the best in the industry by offering maximum versatility and protection.

- A full 48” long double-sided, table skirting not only protects, but allows enough length to do all procedures.
- Each panel has sturdy 2” loop across the top that attaches to its own table cover that is placed under the table pad.
- All panels are sewn not heat sealed to ensure longevity.
- Our Scattermaster™ has 18 overlapping leaded panels (24”L x 6.”W), 9 on each side of the table.
- Single sided table protection is also available
- The nylon fabric is mildew resistant, and easy to clean!
- Made in USA

AX-400A	22”-24” wide tables
AX-400A Wide	26”-28” wide tables

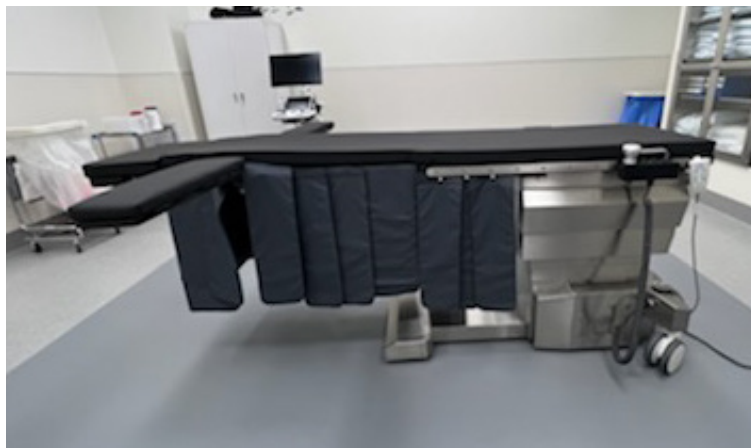

AX-100A

The AX-100A Anesthesia Panel is designed to protect the anesthesiologist. The fabric is mildew resistant, and easy to clean!

- Attaches to any table.
- Head panel to protect anesthesiologist.
- Panel is 24” L x 24”W
- 0.5mm Pb equivalency.
- Hook and Loop strap holds panel to any table.
- Custom Size Available upon request.
- Made in USA

AX-100A	22”-24” wide tables
---------	---------------------

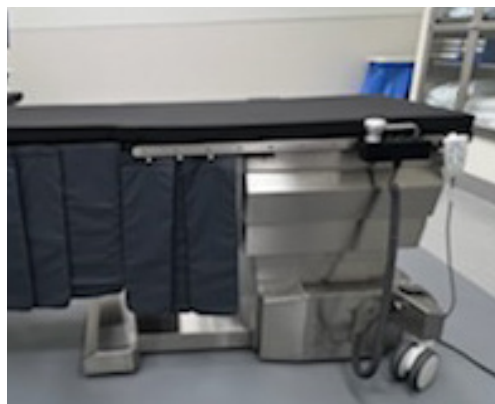

ScatterStop™

AX-US100-4T Scatterstop™ Diagnostic Surgical Table Shielding

The latest innovation from USAXRAY. This was designed for the IDI 100-4T table without velcro attachment!

- Tabletop width 22"
- Snap attachment only
- Directly attaches to the table.
- 3 Part design!

Part 1

Based off our SNAPANEL™ design, we designed these panels to swing freely and cover at any table angle. The design allows for arm boards and for accessories that attach directly to the table.

Part 2

SNAPANELS™ are single leaded panels that are designed to attach to the bolt rung of an accessory rail leaving the rail free for accessory attachment while protecting against scatter radiation

Part 3

Front Shielding is made for attaching a Headrest extension or a Peripheral Extension.

All IDI surgical tables shielding systems are available from
USAXRAY!

*Contact us about our entire line of SCATTERSTOP™ table shields.
We have scatter protection shields for all table manufacture*

iiCurtain

The *Elite CFD Lead Shield* offers important scatter radiation protection. We provide multiple sizes for any model of C-Arm you have.

Fits the new GE-OEC Elite CFD

- Easily detachable.
- The Nylon fabric is easy to clean.
- .5mm Pb Equivalency
- Made in USA

iiCURTAIN-31cm (2 Curtains fits circumference)	Fits GE-OEC Elite CFD 31cm x 31cm Flat Detector
iiCURTAIN-21cm	Fits GE-OEC Elite CFD 21cm x 21cm Flat Detector
iiCURTAIN-12"	12" diameter head
iiCURTAIN-9"	9" diameter head

Fits GE-OEC Elite Image Intensifier

- For 12" (30.5cm) or 9" (23 cm) diameter head.
- Shield secured to the image intensifier with straps.
- Hook & loop on straps can be adjusted to a full up or down position.
- The Nylon fabric is easy to clean.
- .5mm Pb Equivalency
- Made in USA

462

The 462 **USAXRAY** Table to Floor Shield is gap free shielding design on a one-piece apron. Works on all standard accessory rails.

- 30”W x 28”L, hinged 11” in from end.
- Comes assembled.
- All brushed aluminum for strength and durability.
- Hinged to provide additional side protection.
- Extra light weight with minimal working parts.
- Durable antimicrobial nylon fabric is easy to clean and fluid resistant.
- .5mm Pb Equivalency
- Made in USA

462A

USAXRAY Table to Floor Shield Curtain Replacement.

- Easy to clean and mildew resistant.
- Sewn seams, not heat sealed.
- Easy cleaning, Fluid resistant fabric.
- Comes in original length.
- .5mm Pb Equivalency
- Made in USA

Also Available in Navy.

Your Safety Is Our Priority!

Does your Table to Floor Shield Look like this?!

Our panels are less expensive and constructed better with short lead time and a product that will last for years

OLD

Is the cost to completely replace too much? Now you are left with these tattered remains?!

OLD

This will not pass Inspection!

USAXRAY's new panels hold up to the rigors of the Cathlab.

Accessories

Cool Vest

Comfort Cooling Vests are a great solution to reduce and combat heat stress. Comfort Cooling Vests use PhaseCore, a phase change material (PCM), to provide a cooling effect to the body's core by absorbing body heat. Comfort Cooling Vests are extremely lightweight and are comfortable for use under leaded aprons and other form-fitting protective apparel.

- Comes with 16 Phase Core elements-made of non-toxic, non-flammable salt mixture sealed inside an aluminum wrapper.
- Lightweight & comfortable. Works well under leaded aprons.
- Machine washable. Simple, safe, and reusable.
- One Size Fits Most

Super Cinch Belt

The Super Cinch Belt is designed to help disperse weight of an apron off the shoulders for added comfort during procedures.

- Simply by closing the Velcro and pulling the rip cord, the weight of your apron will be lifted from your shoulders.
- The Super Cinch Belt provides unparalleled support for your lower back
- Available in Black

Size	Waist Measurement
S	Small – 25” –30” (63.5cm -76.2cm)
